

Build Better Connections & Stronger Relationships

From front-desk phone calls to open house and school tours, SchoolMint Connect makes it easier than ever to meaningfully interact with families at each stage of their school journey. Designed to meet the unique needs of PK-12 schools, Connect offers educators a powerful Family Relationship Management platform that helps guide families along a purposeful path in your recruitment process. Schools are given insight into valuable recruitment trends, personalized outreach tools and advanced reporting features through a single centralized solution.

Capture Key Data

Collect important inquiry data, report on recruitment trends, and support families with focused guidance as they progress through your enrollment process. With Connect, educators are given instant visibility into key insights and the tools needed to act upon them.

We have been a long time SchoolMint customer and recently added SchoolMint Connect. This solution helps us manage and grow enrollment in an easy to use, yet powerful system.”

Rob Koehler,
Director of Marketing

*Success Academy and Career
Academy, South Bend, IN*

Build a Culture of Champions

Turn your families into school champions by building better connections and more meaningful relationships. With this Family Relationship Management platform, educators are empowered to show off their schools with personalized outreach that is purposeful and always relevant.

Customizable and Intuitive

Your school and its community is unique, which is why Connect is designed for customization. Create your own forms, track unique data points and build a personalized dashboard to fit your needs. Best of all, school staff can access this dashboard via any smart device or tablet.

Gain Powerful Insights

Discover how families find your school and why they choose to enroll. As staff manage tours and track event attendance, Connect gathers and visualizes demographic data to help educators better understand their school's community and the families that they serve.
